

Stop Racism

By Bea and Saffie

What is Racism?

Racism is when you judge someone by where they come from or/and what they look like. It starts off as a simple comment in the playground but can escalate into something potentially dangerous.

Why is Racism dangerous and illegal?

Racism is dangerous because it can get so out of hand it can lead to war and murder! It is illegal because the government said "some of the things people are saying are getting too offensive, we have to choose between war or law."

How can we make
sure we are not
racist?

Have a think.

we can make sure we aren't
racist by:

1. Thinking before speaking.
2. Putting yourself in their shoes.
3. Not generalising
4. And remembering people are individuals.

what is your rule?

How does racism make
people feel?

What do you think?

Racism affects individual
people in different ways ;
they might feel ;

- Like they don't belong where they are.
- Upset
- offended
- Sad
- angry

Malala

What are your first impressions?

Now Malala may look like a normal 18 year old but she has an amazing story to tell. She was a victim of not racism but discrimination and very nearly died. She was on the bus home from school when a masked gunman stepped on the bus and said "which one of you is Malala, if I don't find out I'll shoot you all". So Malala bravely stepped forward and got shot in the head. Amazingly she survived and now lives in bristol and is fully educated.
