

**STOP  
RACiSM  
UNITE TOGETHER**

# What is Racism?

*.Racism is when you judge someone by their colour or by their race.*

*. It's when you say you don't like someone just because of their looks.*

*.when you make a generalisation about a country or religion.*

# Examples of racism!

*I can never understand what polish people are saying!*

*Black people are a different species!*

*Black people are better footballers than white people!*

*People from India are usually quite bossy!*

*White people are really funny!*

*Black people are really funny!*

# WHY IS racism DANGEROUS AND ILLEGAL?

Because it can start somewhere small and become a civil war which ends up with people be killed from being racist or the person being racist will probably attack.

civil wars are dangerous and cause death so if you don't be racist then wars wont start.

It can upset someone and they pretend to be someone they are not.

People can call the police then action and crime will take place around you.

# How can we make sure that we are not racist?

- 1) Think before you say anything and make sure that if you are saying banter you tell the person who you are with!
- 2) Also keep what you think to yourself!
- 3) Make sure you don't judge anyone by what they look like or where they come from!
- 4) Appreciating everybody's differences.
- 5) Think of how you would feel if it would be you!!

# How does racism make you feel?

If you are ever a victim of racism you may feel

- 1) upset with yourself,
- 2) Angry with who you are,
- 3) You want to hide and let no one know you are a victim of racism .
- 4) You want to pretend to be someone you're not!
